Marble coping with softened architectural edges.

Tundra Grey Marble Sand Blasted 12x24x2 Single Bullnose Coping is a gray marble coping, cap, and tread piece from the Tundra Grey Marble Collection. The 12x24x2 size, 2" (5CM) thickness, and Single Bullnose profile are used for pool edges, wall caps, and step treads. The Sandblasted finish gives the stone a matte texture, and V2 (Slight Variation) supports a balanced look across individual pieces with modest shade movement.
